Bloodborne Pathogens: The Final Rule Safety Video – Spanish

As the title implies, this is an extremely comprehensive program relating to Bloodborne Pathogens. This program covers all aspects of an EXPOSURE CONTROL PLAN, information relating to BBP diseases, including Hepatitis B, C, and HIV, as well as modes of transmission, PPE and acceptable work practices, emergency procedures, and recordkeeping requirements. Dr. Jeffery Kahn, Liver Transplant Surgeon from the University of Southern California discusses the different types of viruses and Bloodborne Pathogens in general. Excellent program for both medical and industrial applications.
