

Air Bag Safety Picture This

TAKATA AIRBAGS

Takata Corporation is a Japanese manufacturer, known as the largest supplier of inflators. It is alleged that people have been hurt from Takata's faulty inflators, exploding and causing serious injuries. Takata's exploding airbags have caused 16 deaths and 300 injuries. Takata is the only company that has been producing inflators, which is an irresponsible behavior and fails to inspect the inflators. This information provides consumer information on Takata's safety and is allegedly related to these explosions.

TAKATA LAWSUITS

The Takata Corporation has faced a growing number of lawsuits because of these lawsuits that they faced about the exploding inflators for their vehicles that failed to cause death or seriously injure the people's safety.
