

Cleaning Pesticide Soiled Clothing Infographic

WORK CLOTHES

Clothes used when working with or around pesticides

-  Wash separately from all other laundry
-  Wear gloves and long sleeves when washing pesticide-contaminated clothing
-  Load only a few items at a time
-  Use maximum amount of detergent recommended for machine
-  Use highest water setting
-  Use hot water
-  Use pre-rinse/soak setting before starting wash cycle
-  Use an aggressive wash cycle that lasts at least 20 minutes
-  Use a high-speed spin
-  Line dry or use dryer
-  Run empty wash cycle with detergent and hot water before using washer for household laundry
