

Confined Space – Program Audit

The following assessment provides insight into the stage of program implementation for each element of your Confined Space Entry Program.

- 1. Review each element of the Program.
 - 2. Compare the implementation of the Program Element against the definitions in the table and select the box in the column directly before the applicable definition.
- * This document is meant to serve as a guide and may not be all inclusive to local and regional regulations. Review local and regional regulations to ensure proper compliance.
