## Environmental Hazards Hospitality Infographic

IN THE UNITED STATES, HOTELS REPRESENT:

More than **5 billion** square feet of space

\$7.5 billion
on energy each year

equal to the worth of 12 Queens of England

But what would happen if all **hotels** reduced their carbon footprint and went

Hotels create

1.9 billion lbs |
of waste each year

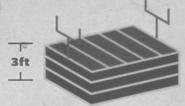

enough to fill

37 million
suitcases

Green Standard
Buildings send
50-75%
less waste to
landfills

BISSE BISSE BRIEF BISSE BEINE

Saving over 206 football fields packed

3 feet deep

of landfill space
