Fixed Open Blade Knives – Picture This

Approximately 8,900 emergency room visits in 2018 could be directly tied to avocados.

According to an analysis by Insider, over 70% of the injuries were sustained by women, and, in cases where race was reported, 80% of injuries were sustained by white people. The oldest person to visit the ER for an avocado-related laceration was 75, and the youngest was 8. Most of those hurt by avocados were, in fact, millennials.
