

Habits and Safety Picture This

What's wrong in this picture?

Office workers are at lower risk for workplace injuries than most, but it's still important to talk about safety with office employees. In this case there is an office worker who looks distracted when working and his desk is dirty, messy and with junk food on it. Lack of awareness and lack of cleaning is visualizing in this situation.

A safe work environment is essential for the wellbeing of employees. Being aware of hazards in the workplace and learning office safety tips goes a long way toward preventing accidents.

Slips and falls are the most frequent cause of injuries in the workplace, and people working in an office are twice as likely to be injured by falling than people who are working in other types of workplaces. Keeping alert and thinking ahead can help minimize the risk.
