OSHA Directive: Whistleblowers Investigation Manual Part II

Retrieved from: Occupational Safety & Health Administration

OSHA Instruction DIS 0-0.8, Whistleblower Investigations Manual, dated January 10, 2002, provides guidance for investigating complaints of discrimination under fourteen “whistleblower” statutes. Since January 2002 OSHA has been delegated responsibility for two additional whistleblower statutes, each containing various differences and distinctions in the way the cases are processed and investigated. This Instruction updates the previous Manual to include the new statutes and includes minor corrections and enhancements to the previous version.
