

OSHA Program Wizard: Emergency Action Plan

When emergencies happen, they require quick, correct, and decisive responses. This emergency action plan facilitates and organizes actions of your workforce during workplace emergencies.

The purpose of this safety program is to aid business owners with their Federal OSHA compliance efforts. Each business is unique and this wizard guides you through the required customization. As the program is customized, remember to only include words, sections, concepts, procedures, etc. that are relevant to the operations. The purpose of any written safety program is to provide a clear and consistent plan for addressing safety in a particular area of focus.
