Active Shooter – (8 min)

Incidents involving active shooters continue to be in the news. These acts of violence are becoming more commonplace in today's society, and although your chances of being a victim of an active shooter incident are minuscule, it is important your organization and your associates plan and be prepared for such an incident. Active shooters can strike where we live, where we work, where we study, where we shop or any other environment. No business or institution is immune to the potential of an active shooter attack. The purpose of this informational training is not to alarm viewers, but to enlighten them regarding some of the elements of an active shooter scenario and what they should do to be prepared to deal with such an act.

Beyond Basic Driving: Company Owned Vehicles – (8 mins) Spanish

Beyond Safe Driving is exactly that. This video won't teach your drivers how to drive. They already know that. It goes beyond that to teach them specific skills in handling larger courtesy vehicles. These vehicles handle quite differently than most passenger cars and a specific skill set and knowledge is required to operate them safely. We address today's #1 hazard, Distracted Driving, but we also detail numerous hazards and the steps that can be taken to reduce the risk to your driver, your vehicle and your passengers.

Beyond Basic Driving: Utility Cart Safety – (5 min) Spanish

Utility carts are in use at many Hotel and Resort locations for a wide variety of purposes. This program addresses specific hazards associated with utility cart use that were compiled from actual loss control data. Viewers are shown common sense approaches to reducing risks for them, their passengers and pedestrians. This program aims to make everyone on your property safer.

Bucket Truck Safety – Spanish

Bucket & Boom trucks are great tools and have many uses. They allow us to reach places we could not normally reach but there are dangers you may face. That's what this program is all about, the hazards associated with Bucket Trucks and steps you can take to help minimize your risk and keep you, and those working around you, safe.

Fall Protection: Fixed Ladders, Catwalks and Stairs – (8 min)

This program examines potential fall hazards when working at a grain elevator. The primary concerns are fixed ladders, stairs and catwalks. The program outlines the potential hazards associated with these 3 types of access/egress and shows ways these hazards can be reduced or eliminated. Proper inspection procedures along with safe rules of use are presented in a concise, to the point manner.
