

Heat Stress: Facts and Prevention

Heat Illness...it can happen to just about anybody working in hot or humid conditions. It can be serious. It can be fatal. But, it' doesn't have to be. A few simple, easy to do steps can mean the difference between just another day at work and a serious medical emergency. This video outlines these steps in an easy to understand manner.

Home Health Care – Body Mechanics

The purpose of using proper body mechanics is simple???To Prevent Injury. One of the most strenuous and potentially hazardous parts of home healthcare is bending, stretching and reaching. This program teaches how to reduce risk and prevent injury. Lift assist equipment such as gait belts, bath boards, grab bars and others are discussed as ways to reduce lifting demands. Viewers are taught to properly assess their environment and correct hazards before incidents occur. Safe Client Transfers and Ambulation are addressed in detail.

Home Health Care – Elder/Child

Abuse and Neglect

Elder and child Abuse. Tragic. Horrifying. Unthinkable. Yet, it's estimated hundreds of thousands of elders and children are abused each year. Estimated because our picture of elder and child abuse is limited, due to the hidden and complex nature of the problem and the failure of healthcare workers and others to report elder and child abuse consistently. It can be hard to spot the more subtle forms of neglect and abuse. They're often unrecognized, because victims tend to be isolated. By learning to recognize elder or child abuse and neglect, by learning how to respond to the cases and by committing yourself to safeguarding clients in your care.

Preventing Workplace Violence in a Restaurant

Preventing Workplace Violence shows employees how to recognize the warning signs of possible violent behavior, as well as how to

avoid or defuse potentially dangerous situations. One out of every six violent crimes occurs in the workplace. And while workplace homicides grab the headlines??? (homicide is the second leading cause of death on the job and the number one killer of women in the workplace)??? other forms of workplace violence happen much more frequently. No organization, regardless of its size or type, is immune to workplace violence. Areas covered in the course include the nature of workplace violence, underlying causes and warning signs, aggressive behavior, threats and verbal abuse, sexual harassment, physical assault and armed assailants, fostering a positive workplace environment, and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

Professional Skiing and Riding for Ski Area Employees – (7 min)

In a ski area, sometimes people forget about safety. But safety must remain in the forefront of everyone???s mind. This video outlines some of the most common hazards on the mountain and details actions that can be taken to help minimize the risk to guests and employees alike. This is a great program for beginners and an even better program for experienced professionals who think they know it all!

Respiratory Protection: The Facts

Sometimes it is difficult to respect a hazard you can't see or one that may take years to affect you. Respirators can provide protection, but only if they are worn and used properly. Respiratory Protection creates an awareness and respect for the hazards by demonstrating with highly effective graphics how the respiratory system works and the effects of different airborne hazards. The program covers proper use, care and maintenance of air-purifying respirators and the importance of proper selection and fit. Respiratory Protection will educate and motivate your worker on when and how to properly use their air-purifying respirator.
