

Driving Hazards Rise in the Fall: Pick Six

Odds of winning the lottery: 1 in 135,145,920 (multi-state, mega-millions jackpot)

Pedestrians walking at dusk soon after daylight saving time ends have triple the odds of being struck hit by a vehicle. (CNN Report)

1: Number 1 on the list of road surfaces to freeze during the fall and winter months is bridge decks.

2: Oil and rubber that build up over the summer months are 2 things that can make roads extremely slippery when the weather turns rainy in the autumn months.

3: If you encounter fog during fall months, do these 3 things: Slow down, turn on your vehicle's headlights (low-beam) and exercise extreme caution.

4: When driving in rain, remember these 4 tips: Slow down, avoid hard braking, avoid large, sudden steering movements and watch the road well ahead for any hazards.

5: Among fall driving hazards are these 5 things: sun glare, wet leaves, fog, frost and deer.

46: The Pennsylvania Department of Transportation says 46 percent of all reportable crashes involving deer on the road within a five-year period occurred in October and November.
