

Protecting Our Aging Workforce

Protecting Our Aging Workforce

ICW Risk Management Services

Baby boomers are projected to represent 1 in 4 U.S. workers in 2024, and age diversity in the current workplace is the widest ever. Join our webinar as we talk about safety and workspace considerations and accommodation for aging workers. We'll also touch on generational considerations, common myths associated with older workers, and the benefits of an aging workforce.

In this webinar you will learn:

- Preparing for the future workforce
- Conducting a Job Safety Analysis for aging workers
- Age-specific employer health programs
