- 1. NO SHORTCUTS**  
Make sure, when operating tools and machinery, to follow instructions. Procedures exist to keep employees safe.
- 2. PPE**  
Make sure you're always wearing the right personal protective equipment, such as a hard hat, goggles, earplugs, and coveralls
- 3. KNOW YOUR SURROUNDINGS**  
The more familiar you are with your tasks and workplace, the more aware you'll be of the potential hazards.
- 4. REPORT UNSAFE CONDITIONS**  
While your employer is legally required to provide a safe Work place, they may be unaware of any unsafe conditions. If you're aware of anything potentially hazardous, report it to your supervisor.
- 5. TAKE A BREAK**  
Our brains just weren't built for the extended focus we demand of it. Give yourself a break to regain focus, and thereby become more aware of your surroundings.
