Confined Space Reclassification Form

Instructions: A Permit-Required Confined Space may be reclassified
as a non-permit confined space if:

- 1. The space does not contain actual or potential atmospheric hazards; and
- 2. All hazards may be eliminated without entry into the space.

The reclassification is valid only while the confined space remains free from hazards. If hazards arise during entry, the space must be evacuated immediately and re-evaluated for hazards.

The reclassification is valid only for the specific entry indicated below.

Location:		
Description	o f	Space:
Purpose	o f	 Entry:
Description of Hazard Originally in Space	Methods Used to Eliminate Hazard	Methods of Verifying Hazard Has Been Eliminated
	all atmospheric test: e as a non-permit conf	ing data relied on in ined space.
